Key Facts
About Poverty and Income in Texas

U.S. Census American Community Survey (ACS)
2014 Data
Why care about poverty?

Research shows living in poverty is connected to negative outcomes, both for individuals and society.

- **Poverty is connected to people experiencing worse health outcomes.**
  - Mothers living in poverty are more likely to have low-birth weight babies, increasing babies’ chances of developmental delays and disabilities.¹
  - According to parent reports, children living in poverty have worse health than children not living in poverty.²
  - People living in poverty experience higher rates of chronic illness such as asthma, diabetes and heart disease.³

- **Poverty is connected to greater challenges in education.⁴**
  - Children living in poverty are less likely to complete high school, attend college and complete college.
  - Children living in poverty tend to perform less well on standardized tests.

- **Children who are born into poverty are more likely to live in poverty and less likely to have consistent employment as adults.⁵**
The U.S. Census Bureau uses the federal poverty thresholds to estimate the number of poor people in the United States. People in families with incomes below these thresholds are considered to be “living below the poverty line.”

<table>
<thead>
<tr>
<th>Size of Family</th>
<th>Poverty Thresholds (total annual income)</th>
</tr>
</thead>
<tbody>
<tr>
<td>One person (under 65)</td>
<td>$12,316</td>
</tr>
<tr>
<td>Family of Two (one adult, one child)</td>
<td>$16,317</td>
</tr>
<tr>
<td>Family of Three (one adult, two children)</td>
<td>$19,073</td>
</tr>
<tr>
<td>Family of Four (two adults, two children)</td>
<td>$24,008</td>
</tr>
</tbody>
</table>

Slightly different from the thresholds, the Poverty Guidelines are used to determine eligibility for various government programs and services. To learn more, visit [http://aspe.hhs.gov/poverty/index.cfm](http://aspe.hhs.gov/poverty/index.cfm).
Texas’ Total Poverty Rate Ranks 38th in the U.S.

US poverty: 15.5%

ACS Table R1701, 1-Year Estimates (2014), KIDS COUNT Data Center.
Rio Grande Valley Home to Three Poorest Metro Areas in the U.S.

Poverty Rate

- Brownsville-Harlingen, TX: 35.2%
- McAllen-Edinburg-Mission, TX: 34.0%
- Laredo, TX: 33.4%
- Las Cruces, NM: 29.6%
- Athens-Clarke County, GA: 29.0%
- Visalia-Porterville, CA: 28.6%
- Auburn-Opelika, AL: 27.7%
- Fresno, CA: 27.7%
- Hanford-Corcoran, CA: 26.6%
- College Station-Bryan, TX: 26.3%

ACS Table GCT1701 (Metropolitan and Micropolitan Statistical Area), 1-Year Estimates (2014).
In Texas, children have the highest poverty rate. The poverty rate of Texas children is **7.4 percentage points higher** than the poverty rate of the total Texas population.

- **under 18**: 24.6%
- **18 to 34**: 19.4%
- **35 to 54**: 12.9%
- **55 to 64**: 11.1%
- **65 and over**: 10.9%

Poverty rate within each age group

ACS Table B17001, 1-Year Estimates (2014).
Texas Children Under 5 More Than Twice as Likely to Live in Poverty

In Texas, the poverty rate of children under 5 is over twice that of adults (18 and over)

<table>
<thead>
<tr>
<th>Age (Range)</th>
<th>Poverty Rate</th>
</tr>
</thead>

<td>14.5%</td>
</tr>
</tbody>
</table>

ACS Table B17001, 1-Year Estimates (2014).
Texas Children Face Elevated Poverty Rates

Texas child poverty rates consistently higher than total population poverty rates. Both rates increased after initial recession impact in 2008.

Differences Persist in Texas in Poverty Rates among Racial and Ethnic Groups

- White, not Hispanic: 9.3%
- Asian: 11.6%
- Black: 23.2%
- Other: 23.2%
- Hispanic: 24.9%

ACS Table S1701, 1-Year Estimates (2014).
More than 1 million White Texans, 2.5 million Hispanic Texans, live in poverty

ACS Table S1701, 1-Year Estimates (2014).
Hispanics are Over-Represented in Texas Poverty Population

Hispanics represent 39% of all Texans, but 56% of poor Texans

ACS Table S0601 and S1701, 1-Year Estimates (2014).
Most Texans Living in Poverty are U.S. Citizens

Citizenship status within Texas poverty population

- **U.S. Citizens**: 82.1%, 3.72M
- **Non-Citizens**: 17.9%, 809K

ACS Table C17025, 1-Year Estimates (2014).
Median Annual Household Income in Texas, by Household Type

Female-Headed: $30,650
Male-Headed: $44,803
Two-Adult: $78,003

<td>8.9%</td>
<td>12.6%</td>
</tr>
</tbody>
</table>

ACS Table B17001, 1-Year Estimates (2014).
In Texas, Poverty Strongly Linked to Level of Educational Attainment

% in Poverty by Level of Educational Attainment

- Bachelor's degree or higher: 4.5%
- Some college, associate's degree: 10.0%
- High school graduate (includes equivalency): 15.1%
- Less than high school graduate: 28.5%

ACS Table C17003, 1-Year Estimates (2014).
More than One-Third of Texans Live Below 200% of the Federal Poverty Threshold

ACS Table B17002, 1-Year Estimates (2014).

Note: 200% federal poverty line is $24,632 for one person; $32,634 for family of two; $38,146 for family of three.
From 2006-2014 Average Income Rose for only the Wealthiest Texas Households

ACS Table B19081, One-year estimates 2006-2014. Adjusted for inflation and expressed in 2014 dollars.
Supplemental Poverty Measure (SPM)

The SPM provides a more correct poverty measure since it takes into account benefits that help people meet basic needs, such as:

- SNAP benefits (food stamps), Social Security, refundable tax credits (Earned Income Tax Credit, Child Tax Credit), housing subsidies

... and subtracts necessary expenses from income, such as...

- Taxes, work expenses, medical out-of-pocket expenses, child care expenses, child support paid

The Overall U.S. Poverty Rate Rises Slightly When Factoring in Benefits and Expenses

- Official Poverty Measure: 14.9%
- Supplemental Poverty Measure: 15.3%

Under the Supplemental Poverty Measure (SPM), national poverty rates improve for children, worsen for adults and seniors.
Social Security has the strongest anti-poverty effect under the Supplemental Poverty Measure

Benefits Most Likely to Improve Poverty Rate

- Medical Out of Pocket (MOOP) Expenses, +3.5
- Work Expenses (ex: transportation), +2
- Payroll Taxes (FICA), +1.6

Biggest Expenses that Worsen Poverty Rate

- SNAP, -1.5
- Refundable Tax Credits, -3.1
- Social Security, -8.2

End Notes

6. “Poverty thresholds” are used for calculating all official poverty population statistics — for instance, figures on the number of Americans in poverty each year. They are updated each year by the Census Bureau. Poverty thresholds since 1973 (and for selected earlier years) and weighted average poverty thresholds since 1959 are available on the Census Bureau’s web site. For an example of how the Census Bureau applies the thresholds to a family’s income to determine its poverty status, see “How the Census Bureau Measures Poverty” on the Census Bureau’s web site. The poverty guidelines are a simplified version of the federal poverty thresholds used for administrative purposes — for instance, determining financial eligibility for certain federal programs. They are issued each year in the Federal Register by the Department of Health and Human Services (HHS).” (http://aspe.hhs.gov/poverty/faq.cfm#thrifty).
